Subject Thank you

I have just read that you are allowing Stephen Colbert to form his PAC. This means a lot to millions of use who merely have an ideology of common sens, not driven by the vehicle of greed. I as a citizen and a veteran of this country has full faith in this man to voice the opinion of those who wish for this country to behave in a bipartisan manner, which has been silenced, and aggregated by more organized entities in the last two years. Thank you for doing the right thing, and I hope that after the news gets out about this PAC, that you all will still have a job after congress gets wind of this. Thank you, Thank you, Thank you
